

BOBIL VANS DIESEL HEATER FITTING COSTS

To find out the cost involved in buying and having us fit an Autoterm diesel heater, please refer to the table below.

All fitting costs include VAT and the cost of us dropping the fuel tank to install a tap into the vehicle fuel tank. An **extra £100 charge** will be applied for any van that is semi-converted or fully-converted van.

Find your van type along the top, and select the right heater size and controller type on the side, to find the cost.
